

This audio on this disc can be played back on any computer with a sound card, cd-rom drive, and **FTR Player Plus** - a free program available for download at http://www.ftrgold.com.au/downloads_startlogin.asp

With **FTR Player Plus**, you will be able to:

- Pinpoint the testimony relevant to your needs
- Access testimony directly without rewinding or fast-forwarding
- Duplicate testimony onto any high-capacity digital media

The tape player-like controls of this program are simple and quickly mastered. You simply:

- Load the day you wish to hear
- Press the forward arrow button to play
- Fast-forward using a button, or enter a specific time of day to hear that part of the proceeding.

No more shuttling tape repeatedly to find certain witnesses testimony or the judge's ruling.

We invite you to set up **FTR Player Plus** on your computer. We think you will be pleased with the quality and flexibility digital audio recording brings to using the court record.

FTR PlayerPlus Quick Reference
