

PRETRIAL RELEASE CONDTIONS MATRIX

Pretrial release conditions should be **individualized based on the PSA scores** for FTA and NCA and should be the **least restrictive conditions** necessary to reasonably assure return to court and no new criminal activity.

COURT REMINDERS	Court reminder notifications will be sent 2 days prior to court at a minimum. High risk (PRL 4–5) will receive additional reminders and/or supportive assistance to reasonably assure court appearance.					
REPORTING	Reporting may be an automated phone check-in for lower supervision levels and virtual, phone, or in-person for high risk, based on the FTA and NCA scores.					
CRIMINAL HISTORY CHECK	Criminal history checks will be conducted prior to court hearings for all risk levels. Expanded criminal history monitoring will be provided to reasonably assure no new criminal activity, as determined by Pretrial Services.					
CASE-SPECIFIC CONDITIONS	Restrictive release conditions such as Drug Testing and Electronic Monitoring should be tied to mitigating a significant risk of failure to appear or re-arrest. Urinalysis frequency to be determined by Pretrial Services.					
ENHANCED SUPERVISION	The Public Safety Assessment (PSA) recognizes that certain offenses may pose a higher public safety risk and, therefore, provides a mechanism to enhance release conditions for Violent Offenses, Step-Up Offenses and Maximum Offenses (utcourts.gov/resources/reports/psa). When indicated by the PSA, Pretrial Services will supervise at the higher risk level.
